Dear Homeowner:

Re: Rehabilitation of Steenburg Lake North Road – Township of Limerick

Our firm has been contracted by the Township of Limerick for the rehabilitation of Steenburg Lake North Road from Highway 62 westerly to Old Hastings Road. This work involves clearing, grubbing, installation of culverts, road base rehabilitation and paving.

The work is expected to commence on or about August 8th, 2017 and be completed by November 4th, 2017.

The purpose of this letter is to ensure that all residents nearby the construction are aware of the work and that we are taking all precautions necessary.

The road will remain open for traffic, with the exception of road closures for completion of several culvert installations. Notification of closures will be posted one week prior to closure via portable message signage at each end of the project. During open road construction operations, there will be single lane closures controlled by traffic control persons while construction is in progress.

We will attempt to keep any inconvenience to a minimum and maintain access to your property. If access will be affected, we will provide advance notice.

We would ask that you remain clear of the work areas at all times. If you should have any questions or concerns, please feel free to contact our office or our jobsite superintendents – Al Danford at 613-813-0428 or Sam Danford at 613-813-0431.
